Apoptosis in alcoholic liver disease. in: Preedy, V.R. (ed.) Apoptosis: modern insights into disease from molecules to man Science Publishers. pp. 211-233 Chapter title Apoptosis in alcoholic liver disease

Apoptosis Modern Insights Into Disease

The rapid evolution of this field is invariably a downside to a static compendium of knowledge such as Apoptosis, but at the moment, it will serve as an excellent resource for anyone who requires a thorough grounding in the biology and physiology of apoptosis.

eTextbook 978-1578085825 Apoptosis: Modern Insights into ...

Apoptosis is essential for survival of the body as a whole and has critical roles in various developmental processes and the immune system. In Means To An End, Douglas Green provides a clear and comprehensive view of apoptosis and other cell death mechanisms.

Apoptosis: Modern Insights into Disease from Molecules to ...

Apoptosis has been recognized and accepted as a distinctive and important mode of "programmed" cell death. As described in the literature, oxidative stress could cause cell apoptosis via both the mitochondria-dependent and mitochondria-independent pathways. Reactive oxygen species (ROS), one of the most important products during oxidative stress, is a collective of oxygen-derived free radicals, which is produced by uncoupling, disturbance, or inhibition of mitochondrial respiratory chain.

Apoptosis: Modern Insights into Disease from Molecules to ...

lpr and *gld* mice defective for the Fas signaling pathway develop lymphadenopathy and splenomegaly and produce a large number of autoantibodies developing a disease that resembles human systemic lupus erythematosus (SLE), clearly demonstrating an essential role for the extrinsic apoptotic pathway in controlling autoreactive T and B cells and the fact that alteration in apoptosis can strongly contribute to autoimmune diseases pathogenesis [152, 153]. In humans defects of the Fas signaling ...
