Ap Biology Reading Guide Answers Chapter 20

Phylogeny definition. The definition of phylogeny in biology pertains to the evolutionary history or development of a group of organisms, such as a tribe or a racial group. The phylogeny meaning is somewhat similar to the term phylogenesis and as such, they are sometimes used interchangeably. However, in a stricter sense, phylogenesis refers to the biological process by which a particular ...

AP Bio Chapter 25 Phylogeny and Systematics Flashcards ...
Phylogeny is the evolutionary relationships between different
species. Species within the same taxonomic group have
shared phylogeny (i.e. they have a common ancestor). (1)
Phylogeny is what taxonomic classification is based upon. (1)
Molecular evidence is examined to classify organisms based
on their genetic similarity.
